PROFILE

React.js Developer and Front-End Engineer with hands-on experience building responsive, high-performance web applications using React.js, Next.js, and JavaScript (ES6+). Skilled in translating Figma designs into clean, accessible user interface designs with strong debugging and problem-solving abilities. Solid foundation in TypeScript, component-based architecture, Redux state management, and performance/SEO optimization in Next.js, with a focus on maintainable code and great user experience.

EMPLOYMENT HISTORY

Jun 2025 — Dec 2025

Frontend Developer, Root Academy

- Developed and maintained 5+ responsive web applications using React.js and Next.js with JavaScript (ES6+) coding best practices, serving real users.
- Built 10+ reusable, modular UI components with user interface design principles, reducing development time by 30%.
- Optimized page load performance using Next.js SSG/SSR and lazy loading, improving load speed by 40%.
- Integrated 8+ REST APIs using Axios/Fetch with React Hooks, Redux, and Context API for efficient state management.
- Translated Figma designs into pixel-perfect, accessible user interface design using modern CSS (Flexbox/Grid) and Tailwind/Bootstrap.
- Performed thorough debugging and testing using Chrome DevTools, Jest, and cross-browser compatibility checks to ensure code quality.
- Collaborated with designers and backend developers to deliver end-to-end features with strong coding standards and debugging practices.

EDUCATION

Present

B.Sc. in Computer Science & Artificial Intelligence (Expected 2026), Faculty of Computers & Artificial Intelligence

LANGUAGES

English — Good working knowledge

Arabic — Native speaker

PROJECTS

E-Commerce UI Clone (Shop Mart)

Developed a responsive e-commerce web application using Next.js and Redux, implemented UI design principles, integrated REST APIs, and performed debugging and testing using Jest.

- Built with Next.js, Context API, and CSS Grid/Flexbox.
- Implemented cart functionality, product filtering, and fully responsive layouts.
- GitHub: https://github.com/olafarhat55/shopmart
- Live Demo: https://shopmart-eight.vercel.app/

Dashboard UI Kit

A modern, dark-themed admin dashboard UI kit built with Next.js 14, TypeScript, and Tailwind CSS. Features interactive data visualization, user management, transaction history, and a fully responsive collapsible sidebar powered by mock data.

- Built interactive Line, Bar, and Donut charts using Recharts with custom tooltips.
- Implemented searchable user management, transaction tracking, dark/light mode, and skeleton loaders.
- GitHub: https://github.com/olafarhat55/dashboard-ui-kit
- Live Demo: https://dashboard-ui-kit-three.vercel.app/

DevBlog — Blog Platform

A modern, fully static blog platform built with Next.js App Router, TypeScript, and MDX. Features a GitHub-inspired dark theme, syntax-highlighted code blocks, tag filtering, auto-generated table of contents, and SEO-optimized pages.

- Implemented Static Site Generation via generateStaticParams, MDX content with JSX support, and syntax highlighting using rehype-highlight.
- Built tag filtering, reading time estimation, prev/next post navigation, custom 404 page, and loading skeletons.

SKILLS

React.js	*Experienced*	SSR (Server-Side Rendering)	*Skillful*
Next.js	*Experienced*	SSG (Static Site Generation)	*Skillful*
JavaScript (ES6+)	*Experienced*	SEO Optimization	*Skillful*
TypeScript	*Skillful*	Performance Optimization	*Skillful*
HTML5	*Experienced*	Code Splitting	*Skillful*
CSS3	*Experienced*	Lazy Loading	*Skillful*
Responsive Web Design	*Experienced*	Accessibility (ARIA Basics)	*Beginner*
Tailwind CSS	*Experienced*	Git	*Experienced*
Bootstrap	*Skillful*	GitHub	*Experienced*
CSS Flexbox	*Experienced*	npm	*Experienced*
CSS Grid	*Experienced*	Yarn	*Skillful*
Figma to UI Implementation	*Experienced*	VS Code	*Experienced*
REST API Integration	*Experienced*	Chrome DevTools	*Experienced*
Axios	*Experienced*	Problem Solving	*Experienced*
Fetch API	*Experienced*	Team Collaboration	*Experienced*
React Hooks	*Experienced*	Attention to Detail	*Experienced*
Context API	*Skillful*	Time Management	*Experienced*
Redux (Basics)	*Beginner*	User Interface Design	*Experienced*
Jest	*Beginner*
